ORCHIDS

for All

by

CARL J. SMALL

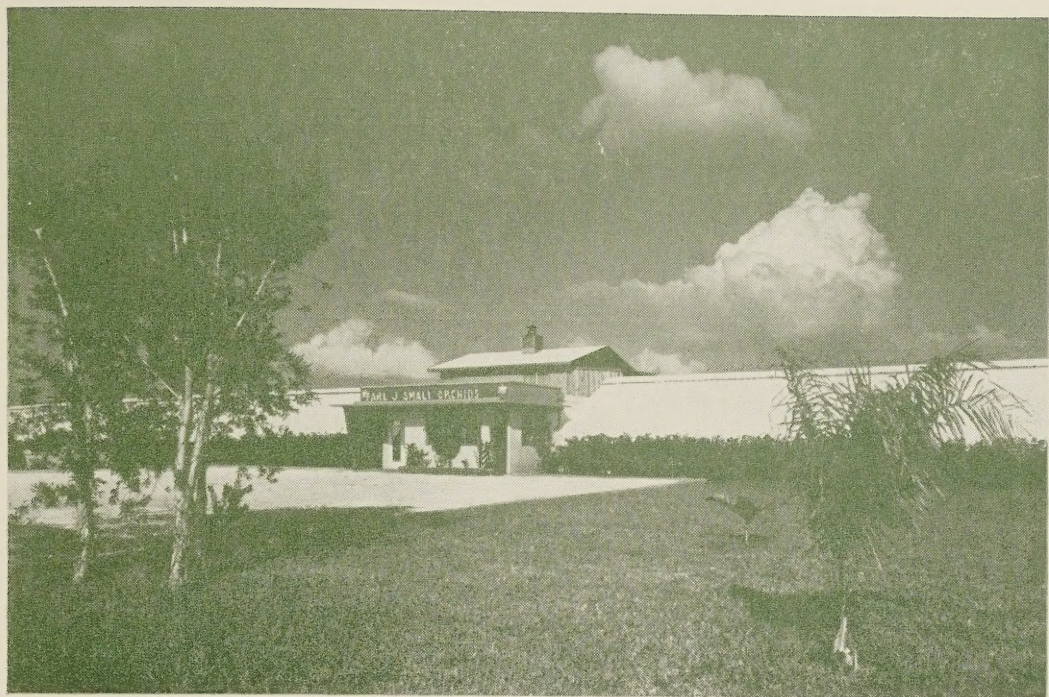

ST. PETERSBURG
FLORIDA

An Orchid is like....

A Precious Jewel

Above is a front view of the Earl J. Small Orchids' main office and greenhouses located at 49th Street and 70th Avenue North, St. Petersburg, Florida

EARL J. SMALL

ORCHIDS

GROWERS HYBRIDIZERS

The seedlings in this catalog are only a partial list of the many new hybrids we are raising in our seedling range. Although we do not have sufficient plants of our other seedlings to warrant listing, we will be very glad to fill orders for additional crosses. To do this we ask that you give us an idea of the Season and color you prefer, and let us make the selection. Our reputation is your guarantee of satisfaction.

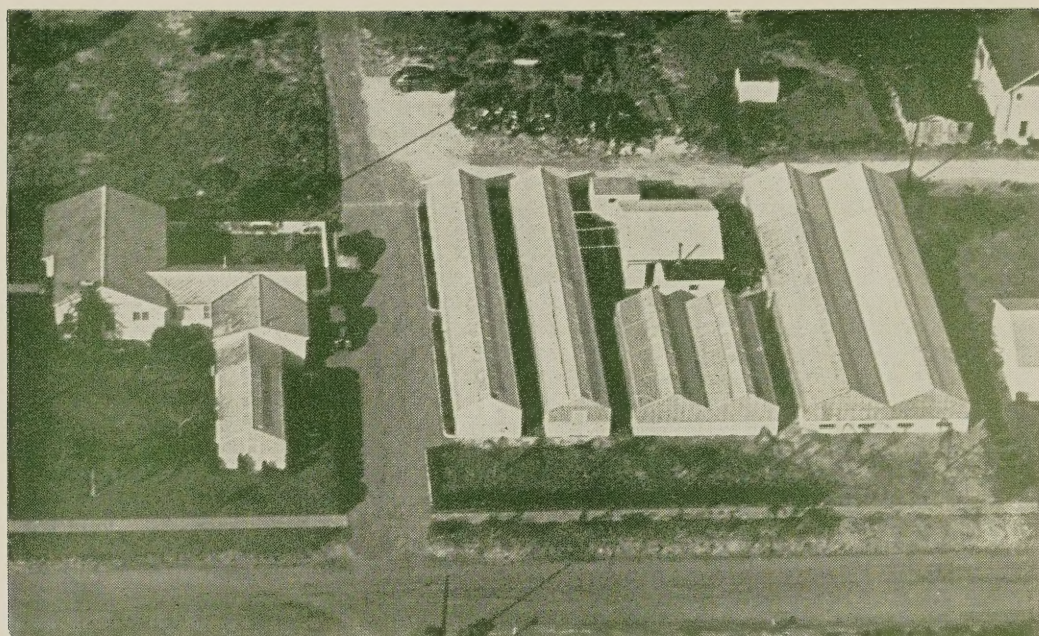

All orchid seeds are germinated in flasks by a laboratory technician who tends them carefully for a year's time.

UNFLOWERED CATTLEYA SEEDLINGS

CROSS NUMBER		POT SIZE	PRICE PER PLANT
2	LC. EMINENCE "Variety Outstanding" X C. AMABILIS Large, well-formed flowers, carried on a spike bearing three to six bloom, was the aim in making this cross. Both parents are very productive; with a minimum of lighting control, season of bloom can be readily delayed until Christmas. These seedlings are rapid growers and should flower at an early age. Color will be a rich lavender with very dark lip.	1 3/4" 2 1/2" 3 1/2"	1.50 3.00 8.00
5	C. PEARL (C. Bobbie Jewell X C. Blanchley's Alba) Both of these parents are very fine specimens of the pure white type. They have a nice touch of yellow in the throat; both texture and size are excellent. Season is expected to be about September and on into the winter months.	1 3/4" 2 1/2"	1.75 3.50
42	BLC. CALIGULA "Variety Excelsia" X LC. HELEN WILMER This cross is aimed at producing some of the finest quality exhibition flowers ever raised. Blc. Caligula var. Excelsia is very large and extremely well shaped. Lc. Helen Wilmer is also large and well shaped, but, in addition, is exceptionally dark. Both parents have large beautiful lips and superb texture. Season is expected to be Winter and Spring.	1 3/4"	1.75

CROSS NUMBER		POT SIZE	PRICE PER PLANT
163	C. FABIA X LC. MAX J. PALM Both of these parents were exceptional flowers of large size and fine dark color. The combination should produce the kind of large dark bloom that are always in demand.	2 1/2"	3.50
167	C. HARBINGER (C. Enid X C. Tityus) A fine, free flowering hybrid. Color will be rich lavender and a dark lip. Season will be variable; plants will flower several times a year.	2 1/2" 3 1/2"	3.00 8.00
281	LC. LINNAEUS T. SAVAGE X C. GLORINETTE "Variety Superba" Right from the flask, this cross has proven the results of an excellent mating by its unusually strong growth habit. Little needs to be said on behalf of C. Gloriette "Var. Superba" whose flowers are world-renown for their beauty, size and shape. Breeding this with the fine Lc. Linnaeus T. Savage will produce an excellent new hybrid of extremely rich colors for the Winter Season.	1 3/4" 2 1/2"	1.75 3.50
295	LC. ALTEN X C. TITRIANAE "Very Fine Variety" Another bid for large, well shaped flowers in mid-winter. Lc. Alten is one of our finest Winter producers of large, heavy textured flowers. By mating it with this particular C. Titrianae, we expect an even better new Winter flowering hybrid (if such a thing is possible).	1 3/4" 2 1/2"	1.75 3.50
358	CATTLEYA GLORINETTE X CATTLEYA ENID This should, indeed, make a very fine hybrid. C. Gloriette is a very outstanding flower with a wide dark lip, and is the parent of many fine hybrids. The Season should be Winter and variable, possibly blooming with each new growth. These seedlings are very vigorous growers and should flower when quite young.	2 1/2" 3 1/2" 5"	3.00 8.00 15.00
434	C. MAGGIE RAPHAEL (C. Trianae "Fine Variety" X C. Aurea) The flowers of this old dependable hybrid always speak for themselves. Color is very dark . . . beautiful. Season is Mid-winter and they always do their part in filling orders for hybrid orchids at Christmas.	2 1/2" 3 1/2"	3.00 8.00
435	C. MAGGIE RAPHAEL (C. Trianae "Baldwin Hybrid Strain" X C. Dowiana Aurea) A remake of an old timer using two of the finest parents available. Not much needs to be said for this fine producer of dark orchids in the late Fall and Winter; it is known for its part in filling Christmas orders for hybrid orchids.	1 3/4"	1.50
545	CATTLEYA ALESIA ALBA (C. Mossiae "Reineckiana" [Young's Var.] X C. Dionysious Alba) Another bid for the Spring blooming white with colored lip. These plants, vigorous growers, should bloom a little later than others of this type . . . in May and June	3 1/2" 5"	10.00 15.00

Above is an aerial view of our potted plant range at 566 - 49th Street South

CROSS NUMBER		POT SIZE	PRICE PER PLANT
548	C. HOSHANG (C. Intertexta "Juliette" X C. Trianae "Broomhill's Var.") Very superb pure white . . . recently pictured in the A.O.S. Bulletin as "C. Evamay Patterson". If you are interested in a strong growing pure white hybrid with an outstanding flower production, THIS is the plant; both parents are very exceptional in these respects. The Season will be Winter and Spring, including Easter.	3 1/2" 5"	12.00 18.00
551	CATTLEYA CATHERINE PATTERSON (C. Enid Alba XXXX Best X. C. Mrs. Frederick Knollys Alba) Both parents are extremely large, white flowers with very fine colored lips. The Season is assured to be Winter and early Spring. The scarcity of good, white, colored lip in this period makes this a very valuable hybrid in any collection.	3 1/2" 5"	10.00 15.00
554	LC. AMERICAN SECURITY (C. Royana X Lc. Princess Margaret) C. Royana is an exceptionally strong-growing Cattleya of large size. Its color is very dark with excellent dark lip and a nice suffusion of yellow. A union with Lc. Princess Margaret should make a great hybrid for the months of May, June and July. This is very similar to the famous L. Deloris Ziegfield.	3 1/2" 5"	10.00 15.00

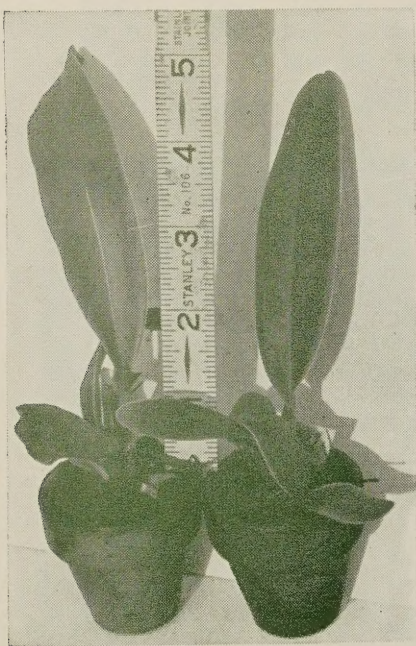

- | | | | |
|-----|--|--------|-------|
| 558 | CATTLEYA BING CROSBY (C. Royana X C. R. Cadwalader) | 5" | 15.00 |
| | June, the month of weddings and graduations is hit squarely by this fine, very dark hybrid. The strong growing habit of this plant makes it a favorite among orchid growers everywhere. Color is extremely dark, the lips of some being marked with brilliant yellow. | 6" | 20.00 |
| 564 | LC. ARTHUR E. MILES (Lc. Sagana "Var. Easter" X C. Mossiae) | 3 1/2" | 12.00 |
| | A repeat cross of one of our largest and finest Easter hybrids. These plants are very strong growers producing beautiful, heavy textured, large bloom during the Spring months. | 5" | 18.00 |
| 565 | CATTLEYA ENID ALBA (C. Mossiae "Reineckiana" Young's Var. X C. Gigas "F.M.B.") | 2 1/2" | 3.50 |
| | Large, white flowers with beautifully marked, colored lips are produced right in the middle of Winter by this dependable hybrid. Growth is exceptional, mature plants branching out rapidly to produce large multi-lead plants. The plants of this cross that have flowered as of this date have more than justified our high esteem of these seedlings. | 3 1/2" | 10.00 |
| | | 5" | 15.00 |
| | | 6" | 20.00 |
| 575 | LC. ERNIE PYLE (Lc. Altesse X C. Mossiae "R. E. Patterson") | 2 1/2" | 3.50 |
| | Winter and Spring flowers in quantity as well as quality. These seedlings are very strong growers, and flower when very young. One plant in a 2 1/2" pot produced two flowers on a growth only 8" high from rizhome to tip of leaf. | 3 1/2" | 10.00 |
| | | 5" | 15.00 |

All shipments are carefully packed to insure safe arrival

Above: one of our eight greenhouses picturing about five thousand mature plants that were raised in our ranges.

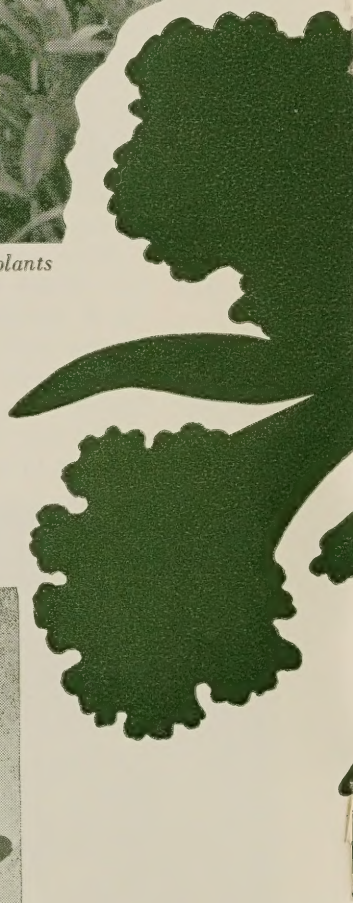

Seedlings in 1 3/4" Pots

All are large plants for the size of pot; they should be planted in 2 1/2" pots. Averaging five inches high they should flower in about three years.

Seedlings in 3 1/2" Pots

These are very large, nearly mature seedlings ready for 5" pots when delivered. Many will flower within a year.

Visitors thrill to beauty and plantety displayed in flowering range.

Our Cattleya St. Petersburg variety, "The Mayor", a fine pure white named in 1949 in honor of the first orchid show to be held in this city. It has won us four first prizes in orchid show exhibits to the present date.

Seedlings in
2½" Pots

We think this is the best offer in our catalog! These are large plants averaging 8" to 10" in height and are ready for 3½" or 4" pots . . . Expected to flower in less than two years.

our

	POT SIZE	PRICE PER PLANT
MATURE PLANTS		
LC. GEORGE E. BALDWIN (C. Enid X Lc. Princess Margaret)	5"	15.00
One of the finest hybrids ever raised. A very free	5½"	20.00
producer of large, well shaped bloom. Here, in Flor-	6"	25.00
ida, this hybrid flowers nearly all the year around, but		
is predominately a late Spring bloomer, a big share		
of its bloom being in May and June and a secondary		
crop in September.		
LC. ETHEL MERMAN (Lc. Jane Dane X Lc. Canhamiana Alba)	5"	12.00
A large, free blooming, white flower with purple lip.	6"	15.00
This hybrid starts flowering in February and continues	7"	18.00
until May producing plenty of flowers for both Easter		
and Mother's Day periods.		
LAELIOCATTLEYA TIBERTA (Lc. Ibbie X C. Bertii)	6"	10.00
A very fine hybrid of the medium size, but one which	7"	12.50
blooms very prolificly in the Fall and Winter Seasons.	8"	15.00
It is not at all unusual to have 7 to 9 blooms per spike.		
These are all very large plants measuring 18 to 30		
inches in height.		
LAELIOCATTLEYA VANDELETTA (Lc. Ibbie X C. Leda)	6"	10.00
Another very fine hybrid that is almost identical to	7"	12.50
the Lc. Tiberta above in every respect . . . especially	8"	15.00
in its tremendous growth . . . however, it usually has		
blooms that are a little darker in color.		
C. ST. PETERSBURG (C. Clementine Goldfarb X C. Eucharis)	5"	20.00
This is a very fine, free blooming, pure white of medium	5½"	25.00
size and knows no Season. It blooms two to three times	6"	30.00
a year as each new growth is formed. It was originally		
named in April, 1949 by H. Patterson & Sons to honor		
St. Petersburg's first orchid show, but was later regis-		
tered as C. Clarice by another firm.		
C. OLD FORESTER (C. Enid C. Charybdis)	5"	20.00
This magnificent hybrid should be in every collection.	7"	25.00
Its flowers are extremely large with wide sepals and	7"	30.00
petals which are very rich lavender with a velvet deep		
purple lip. These plants are very large and strong		
growers. (Only a limited number of plants available).		
LC. LOUELLA PARSONS (Lc. Jane Dane X C. Gigas		
"F. M. B.")	5"	15.00
A very remarkable, free flowering white with colored	6"	20.00
lip. The bloom are quite large and have paper white	7"	25.00
sepals and petals. Here, in Florida, we get nearly the		
entire crop of bloom during the wedding month of June.		
LC. ALTEN (Lc. Altesse X C. Enid)	5"	25.00
This is one hybrid we should never offer for sale due	5½"	30.00
to its high quality and productivity, but we list it here	6"	35.00
to provide a more complete catalog. The flowers of	7"	40.00
excellent texture are extremely large in size and very		
beautifully colored, with rich lavender petals and		
have a very frilly dark lip usually beautifully marked		
with yellow. Season is Winter and variable.		

	POT SIZE	PRICE PER PLANT
LC. CANHAMIANA ALBA (L. Purpurata, Variety "Orchid- knoll" X C. Mossiae, "Reineckiana" Young's Variety)	5"	15.00
This is an identical repeat cross of Albert's famous No. 100 strain. The flowers have large white sepals and petals and a deep rich purple lip. Growth is excep- tionally strong; productivity is high with three to six bloom per stem. Season is May and June.	6"	20.00
	7"	25.00
C. FLORENCE PATTERSON (C. Clementine Goldfarb X C. Rita Sladden)	5"	20.00
A very strong growing and free blooming pure white that flowers several times a year on each new growth as soon as it is produced. Flowers are of excellent substance.	5 1/2"	25.00
	6"	30.00

Realizing that it is difficult for orchid growers, especially amateurs, to select plants from a catalog that will be best suited to individual growing conditions, and to their own needs, I am offering my personal services to those who would like advice about the plants they desire to purchase.

Earl J. Small

	POT SIZE	PRICE PER PLANT
LC. ARTHUR E. MILES (Lc. Sagana "Var. Easter" X		
C. Mossiae "Oliver Lines")	5"	20.00
This hybrid has proven to be one of the finest we have.	6"	30.00
The flowers of rich colors are very large, well formed	7"	40.00
and heavy textured. They bloom all through the early		
Spring months when this type flower is scarce indeed.		
CYCNOCHES CHLOROCHILON		
This is the famous "Swan Orchid", so named because of	3½"	3.50
its resemblance to a Swan. The blooms are produced	4"	5.00
in clusters of 5" flowers with chartreuse sepals and	4½"	7.50
petals, and have a beautiful lip which is white like the	5"	10.00
back of a Swan. The Swan's head is formed by the		
column. Flowering Season is Fall and early Winter.		

Orchid seeds are planted in our Laboratory using conditions very similar to that found in surgical operating rooms. They are grown for one year on a sterile agar media encased in a tightly corked flask with only a tiny cotton plug to allow plants to breathe. The seedlings are planted into community pots of about 30 plants each when about ½ inch high.

	POT SIZE	PRICE PER PLANT
C. MOSSIAE (Species from Venezuela)	5"	7.50
We offer this old dependable Cattleya for those who wish flowers during Spring when both Easter and Mother's Day create a good demand. C. Mossiae is one of the easiest to grow and to flower. It is especially recommended for the beginner.	6"	10.00
C. TRIANAE (Improved Baldwin Strain)	6"	10.00
These plants were raised after mating two of the finest types and have resulted in a very excellent strain of C. Trianae. They flower in Mid-winter with rich lavender flowers of fine shape and superb lasting qualities. The growth of these plants is very exceptional.		

SPRAY TYPE ORCHIDS

J-7 VANDA SUAVIS "Var. Broadview" X V. TRICOLOR	4"	3.50
Very vigorous seedlings that should produce quantities of very pretty and fascinating bloom in a range of bronze to spotted light lavender colors.	5"	5.00
273 VANDA PRINZES BEATRIX (V. Coerulia X V. Agnes Joachim)	4"	4.00
A semi-terete type of Vanda that will thrive in a well lighted greenhouse or out-of-doors in warm weather. Color should range from lavender into shades of blue. (Limited quantity.)	5"	6.00
279 V. TRICOLOR X V. HERZIANA	4"	4.00
A strong growing and heavy blooming Vanda, with spikes several times a year, is produced by these parents. Color will range from cream into shades of blue.	5"	6.00
403 D. ROI ALBERT (D. Antelope X D. D'Albertisii)	3"	2.50
A beautiful little novelty type with long sprays of flowers of the D. Antelope type. Color is chartreuse and white.

SPECIAL "GET ACQUAINTED" OFFER

12 Plants . . . \$95.00 . . . Prepaid

To convince you of the quality of our plants, we will select 12 strongly growing Cattleya Hybrid Seedlings, in 3½ to 4½" pots, ship them via Railway Express, prepaid, to any address in the Continental United States. These plants will consist of fine hybrid stock, well balanced as to Season and color, and they will include pure whites, white with colored lip and various lavender types.

CONDITION OF SALE

1. Orders will be filled in the order they are received.
2. We do not make a packing charge, but cannot accept orders for shipment of less than \$5.00.
3. All orders are F.O.B. St. Petersburg and unless otherwise advised, shipment will be made via Railway Express, collect. However, for faster service to distant points and in cold weather, we recommend Air Express (or Air Freight on large orders). All shipments to Hawaii are made via Air Mail Parcel Post. In order to save time to this area, our firm will advance the necessary postage, but in return ask reimbursement of these charges promptly upon receipt of bill for same.
4. Our firm has been properly authorized to handle shipments to Hawaii, but first the customer must forward with his order his permit which he must obtain from the Board of Commissioners of Agriculture and Forestry, Honolulu.
5. Unless your credit has been established with us, kindly enclose check, money order, or bank draft to cover payment of your order in full.
6. We prefer to ship all large plants and larger seedlings out of pot to lower the cost of shipping, particularly when the distance is great. Unless requested to ship plants in pots, all large plants will be carefully removed and packed for safe arrival in light weight cardboard shipping containers.
7. Claims for damaged shipments must be filed immediately with the carrier by the consignee. We make every effort to pack carefully, and our responsibility ends when the shipment is accepted by the carrier.
8. All plants in this catalog are offered subject to prior sale and we reserve the right to substitute a similar cross of equal or better value unless a choice is given or you specify "no substitutions".

SPECIAL OFFERINGS FOR A LIMITED TIME ONLY

On this sheet are listed plants that are too few in number to put into our catalog. They are to be sold on a "First-Come-First-Served" basis. We ask you to name second choices or allow us to substitute in the event of prior sale.

UNFLOWERED SEEDLINGS

CROSS NUMBER		POT SIZE	PRICE PER PLANT
N-2	ONCIDIUM LANCEANUM (Species from Trinidad) We have a few strongly growing seedlings of this fine variety. Flowers are yellow and brown spotted with a large, beautiful, rose-purple lip.	1 3/4"	1.50
7	LC. COLEMAN BERWICK (Lc. Hertha X C. Belgica) Very fine dark flowers with an excellent shape and texture; they greatly resemble Lc. Governor Gore. Season is December and Mid-winter.	1 3/4" 2 1/2"	1.75 3.50
46	LC. FLORENCE PICKARD X LC. CANTARA ALBA Two very fine white, colored lip parents were used in this attempt to produce a fine new white for the month of September. Lc. Cantara is characterized by an extremely large, reddish-purple lip while Lc. Florence Pickard was selected for its extremely large sized sepals and petals and heavy producing qualities. Both flower in September.	1 3/4"	1.75
50	LC. TARTAN X BLC. HEATHERWOOD Exceptionally strong growth and heavy flower production is the goal of this cross. Lc. Tartan is a large, dark flower with exceptionally strong growth habits. Mating this with Blc. Heatherwood, a very fine shaped, heavy textured, and strong growing plant is sure to produce an abundance of dark fine shaped, flowers. Season should be Fall and Winter.	1 3/4"	1.75
145	BLC. MARIAN RYERSON (Lc. Linnaeus T. Savage X Bc. Hartland) This cross has produced some very outstanding hybrids which are characterized by a huge fringed lip and richly colored, deep lavender petals and sepals. Season is Winter.	5"	15.00
171	C. TRIUMPH X LC. JACQUINETTA These plants are expected to be heavy producers, and should flower on each new growth as it is developed. The color is rich lavender sepals and petals with a contrasting dark lip.	2 1/2"	3.50

CROSS NUMBER		POT SIZE	PRICE PER PLANT
182	LC. LINNEAUS T. SAVAGE X LC. SAM HOUSTON Two of the finest dark flowers were mated here; they have produced some of the strongest growing seedlings in our range.	2 1/2"	3.50
191	C. TRIANAE, "Fine Variety" X BC. HARTLAND "Field's Variety" The latter parent in this cross is, without a doubt, the finest dark Brassocattleya ever raised. The color is so dark it seems almost a shade of red. By breeding this with C. Trianae, it is expected to bring out a very fine new dark Brasso for the Mid-winter Holiday Season.	1 3/4" 2 1/2"	1.75 3.50
193	DENDROBIUM MONTROSE (D. Thwaitesiae "Veitch's" X D. Ainsworthii) Mating the beautiful yellow D. Thwaitesiae with the cream D. Ainsworthii should produce many beautiful shades of yellow spray orchids in the Spring.	1 3/4"	1.50
240	V. VANDA MISS VAN DEUM (Rose Marie X V. Teres "Var Alexanderii") Strong and sturdy growing seedlings in 2" pots that should bloom in less than two years at their present growth. Needs to be grown outdoors in full sunlight in Summer to flower. 10" - 12" high.	2"	1.50
255	C. ALWYNII "Var. Jane Froman" X LC. HASSALLII ALBA "Cowans Var." F.C.C. A most outstanding white with contrasting rich dark lip. Season should be Winter and Spring.	1 3/4"	1.75
270	LC. AVIGNON "Var. Flora" X C. DINAH, "A.M." Here we expect to obtain fine, dark exhibition hybrids for the month of May.	1 3/4"	1.75
299	LC. VALLANDINA X LC. GLORIA Crossing these two dark parents should result in large, nicely shaped flowers for late Winter and Spring.	1 3/4"	1.75
307	C. TRIUMPH X LC. GLORIA C. Triumph is a very dark, heavy textured flower; by this mating we expect a profusion of large, very dark hybrids in the Spring.	1 3/4"	1.75
308	C. TITRIANAE X LC. PRINCESS PRUDENCE Winter flowers of excellent shape and lasting qualities will be the result of these seedlings.	1 3/4"	1.75
312	DENDROBIUM PHALAENOPSIS "Schroederianum" The ever popular "cane orchid" with beautiful sprays of lavender bloom. Very easy to grow.	1 3/4"	1.50

CROSS NUMBER		POT SIZE	PRICE PER PLANT
321	BC. MRS. ROBERT PATTERSON X C. TRIANAE Fine large flowers during Winter holidays was the intention here. These are vigorous little seedlings and production is expected to be good.	1 3/4"	1.75
335	BC. WENDOVER (Bc. Princess Patricia, F.C.C. A.O.S. X C. Trianae, "Var. Joy") The Brasso in this cross is one of the finest we have ever seen. Mating it with C. Trianae "Var. Joy" can not fail to produce good Winter bloom.	1 3/4"	1.75
433	C. MAGGIE RAPHAEL X C. RAPHAELEDA This cross is a sure thing for the Christmas Holiday Season. C. Raphaeleda always flowers at this time with very large, well formed dark bloom. The colors will be rich and dark with an almost maroon lip.	2 1/2"	3.50
436	C. ENID X LC. ALBERT COSTA Very few hybrids bloom during the late Winter months of February and March, but this is an attempt to bridge that gap. The flowers should be large and full with beautifully marked lips.	1 3/4"	1.50
440	C. EDITHAE X LC. RAPHAELCITA Very unusual colors will result in mating the pure white C. Edithae with the bronze colors of Lc. Raphaelcita. We offer this to the collector who wishes something different.	1 3/4"	1.75
449	C. ARDMORE X C. GIGAS Vigor, high production, dependability and Season are all rolled into each one of these seedlings. Plenty of good flowers during May and June is the result of breeding these parents. This is a repeat of an earlier identical cross which has proven all the above to be facts, and not just hopes.	1 3/4"	1.50
547	C. MARION PATTERSON (C. Marion Davies X C. Trianae "Broomhill's Variety") To best describe this fine pure white, we will just say it is identical to the famous "C. Barbara Billingsley" and it flowers from December to April. Growth habit is tremendous.	3 1/2" 5"	12.00 18.00
566	LC. BOU PHILIPPO (Lc. Windermere X C. Mossiae "R. E. Patterson") Another old dependable hybrid remade. This cross always flowers in the Spring when flowers are in the greatest demand. It is a free grower and a very good producer of bloom.	3 1/2" 5"	10.00 15.00

569 BLC. SHERMAN BILLINGSLEY (Blc. Eva Patterson X C. Belgica A.M., A.O.S.)

3½"

10.00

Here is the making of a very excellent hybrid of large size and very fine shape for the holiday seasons of Christmas and New Year's Day. The C. Belgica used here received an Award of Merit at an A.O.S. meeting in December and is truly an excellent flower.

577 LC. GEORGE E. BALDWIN (C. Enid "Var. Orchid-haven" X Lc Princess Margaret)

2½"

3.50

3½"

10.00

One of the finest hybrids ever raised. A very free producer of large, well shaped bloom. Here, in Florida, this hybrid flowers nearly all the year round, but it is predominately a late Spring bloomer with a large share of its bloom in May and June with a secondary crop in September. These are very vigorous seedlings.

LC. GOVERNOR GORE

5"

20.00

We have only a few divisions and unflowered seedlings of this famous hybrid. The shape of the flower is unexcelled and the color ranges from a rich medium to a very deep lavender. Season is always Mid-winter.

FANCY EXHIBITION STOCK

For the first time, we are offering a list of choice exhibition plants for sale in our catalog. Many of the following have been used as parent stock by leading orchid breeders; to our knowledge, they have never been listed at these low prices.

PLANT NUMBER

- 1001 **C. TRIANAE "Variety Clinkerberryanum"**
Very large flowers with wide petals, good color and form.
Very strong growth habit4 bulbs — 5" Pot — \$ 50.00
- 1002 **LC. FLORENCE PICKARD "Variety Imperial Majesty"**
(Lc. Jane Dane X Lc. Britannia Alba)
Excellent producer for September. Pure white sepals and petals
and a large dark lip with bright yellow throat. Flowers are
always of extreme size.4 Bulbs — 6" Pot — \$ 65.00
- 1003 **LC. FLORENCE PICKARD "Variety Imperial Majesty"**
Same as above but larger plant.5 Bulbs — 6" Pot — \$ 75.00
- 1004 **BC. E. B. DANE "Variety Glorious"**
Strong growing Brasso of good size, color and shape. Very
large lip with a fringed edge.5 Strong Bulbs — 7" Pot — \$ 35.00
- 1005 **LC. EUGENIE (Lc. Schroderae Alba X C. Dionysious Alba)**
Fine white, colored lip. Dependable Fall producer of well
formed flowers of good substance6 Bulbs — 6½" Pot — \$ 40.00
- 1006 **C. GIGAS "Frau Melaine Beyrodt"**
The only reliable white colored lip Gigas. Many fine hybrids
boast having this as a parent.
Blooms in June.6 Bulbs — 6" Pot — \$ 45.00
- 1007 **C. GIGAS "F.M.B."**
Same as above but slightly smaller plant. 6 Bulbs — 5" Pot — \$ 35.00
- 1008 **C. GIGAS "F.M.B."**
Same as above but slightly smaller plant. 4 Bulbs — 5" Pot — \$ 25.00
- 1009 **C. ETHEL BISHOP (C. Barbara Dane X C. S. E. Endicott)**
Very fine pure white. Heavy textured flowers of extremely nice
shape. Resembles C. Bow Bells in nearly
all respects.4 Bulbs — 5" Pot — \$ 50.00
- 1010 **C. MOSSIAE "Var. Oliver Lines"**
A fine dark C. Mossiae that has proven itself many times as a
Stud plant6 Bulbs — 6" Pot — \$ 50.00
- 1011 **C. MOSSIAE "Var. Alexanderii"**
Fine pure white flowers of good shape
and substance.7 Bulbs — 5" Pot — \$ 50.00
- 1012 **C. MOSSIAE "Var. R. E. Patterson"**
Without a doubt one of the finest dark C. Mossiae ever found.
Its value has been proven by the many fine hybrids it has
produced5 Bulbs — 6" Pot — \$ 65.00
- 1013 **BC. CLIFTONI "Var. Magnifica" (Bc. Digbyana-Mossiae X C. Trianae)**
We offer a division of this dependable and proven breeder to the
collector who wants exhibition type flowers. Nice color and
shape with large fringed lip—February 5 Bulbs — 6" Pot — \$ 40.00
- 1014 **C. R. CADWALADER "Var. 100" (C. Dupreana X C. Sylvia)**
A strong division from the original plant used as a parent of the
famous Lc. Deloris Ziegfield.
Very dark flowers during June.6 Bulbs — 5" Pot — \$ 40.00

PLANT
NUMBER

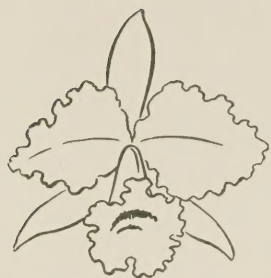

- 1015 **LC. OLIVER LINES** (Lc. Princess Margaret X Lc. Sargon)
This plant is one of our finest exhibition types. Huge flowers of good dark color with large lip and yellow throat.4 Bulbs — 5" Pot — \$ 45.00
- 1016 **C. TRIANAE "Var. A. C. Burrage"**
Classified as one of the finest varieties of C. Trianae in existence. Reputed by most growers to be identical in every respect to C. Trianae "Var. The President". Very fine shaped flowers of good rich lavender and extremely heavy texture. December and January.4 Bulbs — 6" Pot — \$ 75.00
- 1017 **C. TRIANAE "Var. A. C. Burrage"**
See above.3 Bulbs — 5" Pot — \$ 60.00
- 1018 **C. TRIANAE "Var. A. C. Burrage"**
See above.5 Small Bulbs — 5" Pot — \$ 50.00
- 1019 **BC. HARTLAND "Field's Variety"** (Bc. Hannibal X C. Leda)
One of the darkest "Brassos" known. The color of this one is truly a deep Fuchsia. Texture and shape are excellent and Season is Fall and Winter.6 Strong Bulbs — 6" Pot — \$ 75.00
- 1020 **LC. VALLANDINA "Var. Royalette"** (Lc. Profusion X C. Dinah)
Good producer and fine for exhibition. Blooms two to three times a year. Flowers keep 4 to 6 weeks on the plant and texture is very good. Color is rich lavender with dark lip marked with a yellow throat.4 Bulbs — 6" Pot — \$ 60.00
- 1021 **LC. BALKIS "Var. Inspiration"** (Lc. Queen Mary X C. Peetersii)
Fine keeping qualities and rich glowing lavender flowers with a large dark lip. Fall.3 Bulbs — 5" Pot — \$ 35.00
- 1022 **C. EDITHAE "Var. White Empress"** F.C.C. (C. Suzanne Hye X C. Trianae Alba)
Definitely the strongest growing and finest producer of pure white flowers that can be found in the world. The shape is beyond reproach and there is just enough yellow in the throat to set off the pure whiteness of the sepals and petals. Season is Winter.5 Bulbs — 5" Pot — \$200.00
- 1023 **LC. DELORIS ZIEGFELD No. 3** (C. R. Cadwalader X Lc. Princess Margaret)
These flowers are characterized by their fine texture, beautiful shape, rich, deep lavender sepals and petals and by a brilliant lip with yellow eyes.
This is our darkest of this variety.5 Bulbs — 6" Pot — \$ 65.00
- 1024 **LC. DELORIS ZIEGFELD No. 3**
Same as above but stronger plant.5 Bulbs — 7" Pot — \$ 75.00
- 1025 **C. BOW BELLS No. 20** (C. Edithae X C. Suzanne Hye)
A division of one of our finest of this variety and needs little introduction. Shape and Texture are excellent and color is, of course, pure white.3½ Bulbs — 5" Pot — \$ 75.00
- 1026 **C. REMY CHOLLET "Dark Variety"** (C. Monarch X C. Trianae)
An extremely dark variety of this fine old hybrid that is responsible for many of our finest hybrids of today.4 Bulbs — 6" Pot — \$ 40.00
- 1027 **LC. DELORIS ZIEGFELD No. 2 "Variety Majestic"** (C. R. Cadwalader X Lc. Princess Margaret)
Petals on this variety are the widest we have ever seen; the

**PLANT
NUMBER**

- flowers are about 8" across. The lip is very broad with beautiful yellow eyes. Exceptionally strong grower.4 Bulbs — 6" Pot — \$ 75.00
- 1028 **LC. DELORIS ZIEGFELD No. 2 "Variety Majestic"**
Same as above but slightly smaller plant.3 Bulbs — 5" Pot — \$ 60.00
- 1029 **C. TRIANAE "Variety E. J. Small"**
For fine heavy texture, color, and shape this ranks with the best in the world. A very strong grower and flowers are always large. Season is February and March.6 Bulbs — 7" Pot — \$ 40.00
- 1030 **LC. SNOWDRIFT (Lc. Cynthia "Var. Model" X C. Annette Alba)**
Fine white sepals and petals and a beautiful deep purple lip marked yellow in the throat. Blooms twice a year without fail.5 Bulbs — 5" Pot — \$ 50.00
- 1031 **LC. GOVERNOR GORE "Var. Miami" (Lc. Altesse X Lc. Hertha)**
The petals on this variety are as wide as they are long; as a result, the whole flower looks like a huge Pansy with a brilliant deeply colored lip. Very fine texture and color. Mid-winter.6 Bulbs — 6" Pot — \$ 75.00
- 1032 **LC. EVA SHILL (Lc. Profusion X C. Empress Frederick)**
An excellent shaped flower with almost an iridescent brilliance to the fine deep lavender colors in the petals. Dark lip, nicely marked with a yellow throat.4 Bulbs — 5" Pot — \$ 45.00
- 1033 **C. EDITHAE No. 1 (C. Suzanne Hye X C. Trianae Alba)**
A very nice specimen of fine, pure white with large lip marked with yellow. Season is Mid-winter.5 Small Bulbs — 4½" Pot — \$ 40.00
- 1034 **LC. CASSANDRA F. C. C. (Lc. Gladiator X Lc. Sargon)**
Rich, rosey lavender sepals and petals with wine colored lip. Shape is very good and Season is Fall and early Winter. Very strong grower.5 Bulbs — 6" Pot — \$ 75.00
- 1035 **BC. IMPERIAL (Bc. Imperialis X C. Hardiana)**
Superb flowers of nice shape and fine lavender petals. The large lip is marked with a brilliant yellow throat. Season is early Spring.5 Bulbs — 6" Pot — \$ 50.00
- 1036 **LC. OLIVER LINES (Lc. Princess Margaret X Lc. Sargon)**
Dark sepals and petals with large deeper splashes of color on the tips place this flower out in front as an eye catcher. Good texture and shape. Season is Winter and variable.5 Bulbs — 6" Pot — \$ 60.00
- 1037 **LC. JACQUINETTA "Var. Regalis" (Lc. Lustre X C. Empress Frederick)**
Another of the same type as above, but with deep lavender tips on petals that are a very light shade. The lip on this is perfectly round and very large.7 Bulbs — 6" Pot — \$ 40.00
- 1038 **LC. TED TRIMBLE (Lc. Hilary X C. Triclotho)**
Very large, fine deep lavender flowers that nearly always bloom at Christmas. The exceedingly large lip is dark colored.4 Bulbs — 5" Pot — \$ 40.00
- 1039 **LC. WALTER WINCHELL "Var. Purple King" (C. Tappan X Lc. Dupreson)**
Without a doubt, the finest and darkest plant of this cross we have in our entire collection. Although never exhibited, we feel

**PLANT
NUMBER**

- certain this plant would take high honors in any show. Color is extremely dark and Season is Winter.....4 Bulbs — 6" Pot — \$ 85.00
- 1040 C. SKINNERII ALBA**
A very beautiful type of this species with glistening pure white sepals and petals and a faint pinkish lavender touch in the center of the lip. Rare, blooms in March.4 Bulbs — 5½" Pot — \$ 35.00
- 1041 LC. ALTEN "Var. Magnificent" (Lc. Altesse X C. Enid)**
A very strongly growing plant that produces huge flowers in abundance. They have good, heavy texture and nearly always are 7½" to 8" across. Color is rich lavender.
Season Winter.6 Bulbs — 7" Pot — \$ 65.00
- 1042 LC. WALTER WINCHELL (C. Tappan X Lc. Dupreson)**
Fine rich colored petals with deeper lip. Strong grower and flowers in Fall and Winter.6 Bulbs — 6" Pot — \$ 50.00
- 1043 LC. WALTER WINCHELL A.M. A.O.S. (C. Tappan X Lc. Dupreson)**
Fine wide sepals and petals having beautifully marked lip. Color is very rich lavender. This plant has already captured several awards in shows so far.6 Small Bulbs — 6" Pot — \$100.00
- 1044 LC. ST. GEORGE "Var. Mascotte" X C. HARDIANA"**
This is probably the darkest flower we have in our collection. Season is Fall and the plant is a very free bloomer.6 Bulbs — 6" Pot — \$ 50.00
- 1045 LC. SARGON X LC. SANTA MONICA**
Huge lavender flowers that *always* appear during December. The shape is very nice and the plant is a tremendous grower.7 Bulbs — 6½" Pot — \$ 45.00
- 1046 C. BRUNO ALBERTS "Var. Snow Bird" (C. Joan Manda X C. Souvenir DeLouis Sander)**
Large very heavy textured flowers of the finest pure white variety. Lip is beautifully shaped with a golden yellow throat. Season is late Winter.7 Bulbs — 7" Pot — \$ 75.00
- 1047 LC. MOLLY TYLER "Var. Black Beauty" (Lc. Mrs. W. N. Elkins C. Leda)**
Beautiful clusters of small deep purple flowers. An excellent suggestion for the collector wishing something unusual. A tall growing plant. Season is Fall and Winter.6 Bulbs — 6" Pot — \$ 50.00
- 1048 BLC. MARION RYERSON (Bc. Hartland X Lc. Linneaus T. Savage)**
Very wide petals of rich lavender, set off by a wide fringed lip with gold veined throat. Season in Winter and variable.5 Bulbs — 6" Pot — \$ 35.00
- 1049 LC. JANE DANE "Var. Orchidhaven" (Lc. Britannia Alba X Lc. President Wilson Alba)**
One of the finest white colored lip types to be found anywhere. Petals are very broad and heavy textured; the lip is of a very striking deep lavender set off by the brilliant yellow throat. Blooms both Fall and Spring.6 Bulbs — 6" Pot — \$ 70.00
- 1050 C. BEVERLY BOSWELL 'Var. The Finest' (C. Celia X C. December Snow)**
Magnificent, medium sized, pure white sepals and petals with light yellow throat . . . superbly shaped. Very heavy texture and long lasting qualities.4 Bulbs — 5" Pot — \$ 50.00

We sincerely hope that our new catalog will prove helpful to you in selecting plants for your orchid culture. Great care is taken to provide our customers with strong, healthy plants which are vigorous growers.

We are prepared to make shipments the year around in all types of weather. We have a special padded insulated wrapper for use in the winter where shipments must go into cold climates. In addition to this, we check weather reports and do not ship when extremely bad weather conditions exist at the destination. Fast transportation by air makes us nearer than ever before from the most distant parts of the world; the danger of injury of plants during transportation is practically non-existent. We appreciate your patronage and wish you success in your ORCHID GROWING.
